

electrohydraulics for presses

- metal
- press-brakes
- die casting
- ceramics

high-performance
proportional valves with
digital drivers & unique
PC software control

proportional cartridges
with digital drivers
for motion & force
axis control

safety valves designed
to fulfil the safety
criteria imposed by
international norms

standard blocks
for synchronization
on press-brakes with
BG & TÜV certifications

Atos digital electrohydraulics
is successfully operating
in thousands modern presses
with full reliability
